

Action Plan: Incorporating drones, data, and investigations into your teaching

Complete and take with you. We would like to take a photo of the plan before you go

Name:

Institution:

Brainstorm ideas on how, where, when you might add these activities into your teaching. Think about your teaching sequence... where would the use of drones fit in a course or afterschool program? What's prior to these topics? What would follow? How would you assess learning?

Goals: What needs to be accomplished?

Success: How will you determine that you have successfully reached the goals you set?

Title(s) of activity(ies) you want to develop or use:

Describe the program/project:

- Course this activity would be added to:
- Benefits and challenges:
- How does class size impact logistics?
- Support available / needed:
- Accommodations for diverse student populations and learning styles:
- Assessment:
