

Getting to know you...

This activity is designed to introduce the participants and instructors to one another, to investigate some facts about plate tectonics, GPS, and earthquakes and how they have affected people in the group.

Directions: Mingle with your course participants, obtain her/his initials & answer.

<p>I have stood on a major fault</p> <p>Name of fault:</p> <p>Initials:</p>	<p>I have experience with a tsunami</p> <p>When / where?</p> <p>Initials:</p>	<p>I know how plate move motion can be directly measured</p> <p>How?</p> <p>Initials:</p>
<p>I have seen a ghost forest</p> <p>Where?</p> <p>Initials:</p>	<p>I know about oral history of Cascadia</p> <p>Location?</p> <p>Initials:</p>	<p>I have used data in my teaching</p> <p>Type of data?</p> <p>Initials:</p>
<p>I have used a GPS unit or GPS data in my teaching</p> <p>I use it for...</p> <p>Initials:</p>	<p>I have felt an earthquake</p> <p>When? Did you observe any damage?</p> <p>Initials:</p>	<p>I have lived on more than one tectonic plate</p> <p>Which Plates?</p> <p>Initials:</p>
