1 Identification of the substance/mixture and of the company/undertaking

- **Product identifier**
  - Trade name: Hilti B 36 / 3.0 Li-Ion  Hilti B 36 / 3.3 Li-Ion  Hilti B 36 / 3.9 Li-Ion  Hilti B 36 / 6.0 Li-Ion

- **Relevant identified uses of the substance or mixture and uses advised against**
  - Article category AC3  Electrical batteries and accumulators

- **Application of the substance / the preparation**
  - Rechargeable Lithium Ion battery for power tools

- **Details of the supplier of the safety data sheet**
  - Manufacturer/Supplier:
    - Hilti (Gt. Britain) Ltd.
    - 1 Trafford Wharf Road
    - Trafford Park
    - GB-M17 1BY Manchester
    - Tel +44 161 886 1000
    - Fax +44 161 872 1240
    - Customer Service:
      - Tel 0800 886 100 Toll-free
      - Fax 0800 886200 Toll-free

- **Informing department:** see section 16

- **Emergency telephone number:**
  - Hilti (Gt. Britain) Ltd.
    - Tel: 0044 /  161 886 1000
    - Fax 0044 / 161 872 1240
  - Schweizerisches Toxikologisches Informationszentrum - 24 h Service
    - Tel.: 0041 / 1 251 51 51 (international)

2 Hazards identification

- **Classification of the substance or mixture**
  - Classification according to Regulation (EC) No 1272/2008
    - The product is not classified as hazardous to health or environment according to the CLP regulation.
  - Classification according to Directive 67/548/EEC or Directive 1999/45/EC
    - May cause an allergic skin reaction.

- **Information concerning particular hazards for human and environment:**
  - For the battery chemical materials are stored in a hermetically sealed metal case, designed to withstand temperatures and pressures encountered during normal use. As a result, during normal use there is no physical danger of ignition or explosion and chemical danger of hazardous materials leakage.
  - It may cause heat generation or electrolyte leakage if battery terminals contact with other metals. Electrolyte is flammable. In case of electrolyte leakage move the battery from fire immediately.

  - However if exposed to a fire, added mechanical shocks, decomposed, added electric stress by miss-use, the gas release vent will be operated. The battery case will be breaked at the extreme, hazardous materials may be released.

  - Moreover, if heated strongly by a surrounding fire, acrid gas may be emitted.

  - The product does not have to be labelled due to the calculation procedure of the “General Classification guideline for preparations of the EU” in the latest valid version.

- **Classification system:**
  - The classification is in line with current EC lists. It is expanded, however, by information from technical literature and by information furnished by supplier companies.

- **Label elements**
  - Labelling according to Regulation (EC) No 1272/2008 Void
  - Hazard pictograms Void
  - Signal word Void
  - Hazard statements Void
  - Other hazards
  - Results of PBT and vPvB assessment
    - PBT: Not applicable.
    - vPvB: Not applicable.

3 Composition/information on ingredients

- **Chemical characterization: Mixtures**

- **Description:**
  - Lithium Ion rechargeable battery pack:

(Contd. on page 2)
4 First aid measures

· Description of first aid measures
· General information
   This product contains an organic electrolyte. If the electrolyte is leaking out of the battery pack, the following measures have to be taken.
· After inhalation
   Take affected persons into the open air and position comfortably
   Supply fresh air or oxygen; call for doctor.
· After skin contact
   Instantly wash with water and soap and rinse thoroughly. If skin irritation persist, call a physician.
· After eye contact
   Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
· After swallowing
   Seek immediate medical advice.

5 Firefighting measures

· Extinguishing media
· Suitable extinguishing agents
   Water spray, carbon dioxide (CO2), carbon dioxide blanket, foam, or dry powder.
   Foam
· Special hazards arising from the substance or mixture
   Formation of toxic gases is possible during heating or in case of fire.
· Advice for firefighters
   In the event of fire, wear self contained breathing apparatus
   Wear full protective suit.
   Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures
   Wear protective equipment. Keep unprotected persons away.
   Keep away from ignition sources
   Keep people at a distance and stay on the windward side.
   Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition.
· Environmental precautions
   Do not allow to enter the ground/soil.
· Methods and material for containment and cleaning up
   Absorb liquid components with liquid-binding material.
   Collect mechanically.
· Reference to other sections
   See Section 7 for information on safe handling

7 Handling and storage

· Handling
· Precautions for safe handling
   Do not soak in water or seawater.
   Do not expose to strong oxidizers.
   Do not give a strong mechanical shock or fling.
   Never disassemble, modify or deform.
   Do not connect the positive terminal to the negative terminal with electrically conductive material.
   In case of charging, use only dedicated charger specified by Hilti.
   No special precautions necessary if used correctly.
· Information about protection against explosions and fires
   Do not throw into fire or expose to high temperatures (>85°C).
   Do not connect the positive terminal to the negative terminal with electrically conductive material.
· Conditions for safe storage, including any incompatibilities
· Storage
· Requirements to be met by storerooms and containers
   Avoid direct sunlight, high temperature, high humidity.
   Store in a cool place: (-20°C – 35°C, humidity: 45 - 85%)
· Information about storage in one common storage facility
   Do not store together with oxidizing and acidic materials.
   Store away from water.
   Do not store together with electrically conductive materials.
· Further information about storage conditions
   The accu-pack should be stored at 30 to 50% of the charging capacity.
   Avoid storing in places where it is exposed to static electricity.

(Contd. on page 3)
8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
- Control parameters
- Components with limit values that require monitoring at the workplace:
  The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- Additional information: The lists that were valid during the compilation were used as basis.
- Exposure controls
- Personal protective equipment
  - Breathing equipment: Not required.
  - Protection of hands: Not required.
- Material of gloves: Not required.
- Penetration time of glove material: Not required.
- Eye protection: Not required.
- Body protection: Protective work clothing.

9 Physical and chemical properties

- Information on basic physical and chemical properties
- General Information
  - Appearance:
    - Form: plastic case
    - Colour: Black / Red
  - Odour: Odourless
- pH-value: Not applicable
- Change in condition
  - Melting point/Melting range: Not applicable
- Flash point: Not applicable
- Self-inflammability: Product is not selfigniting.
- Danger of explosion: Risk of explosion by shock, friction, fire or other sources of ignition.
- Density: Not applicable

10 Stability and reactivity

- Reactivity
- Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- Incompatible materials: Conductive materials, water, seawater, strong oxidizers and strong acids.
- Hazardous decomposition products: Acid or harmful gas is emitted during fire

11 Toxicological information

- Information on toxicological effects
- Acute toxicity:
  - Primary irritant effect:
    - on the skin: This product contains an organic electrolyte. If the electrolyte is leaking out of the battery pack, the following effects are known when getting into contact:
      Irritant to skin and mucous membranes.
    - on the eye: Irritant effect.
    - Sensitization: No sensitizing effect known.
    - Additional toxicological information:
      The product is not subject to classification according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version.
      When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.
12 Ecological information

- Toxicity
  - Aquatic toxicity: No further relevant information available.
- Additional ecological information:
  - General notes:
    Do not allow battery packs to penetrate the soil.
    The battery cell may corrode and electrolyte may leak.
  - Results of PBT and vPvB assessment
    - PBT: Not applicable.
    - vPvB: Not applicable.

13 Disposal considerations

- Waste treatment methods
  - Recommendation: Dispose of this battery pack according to national regulations or return the used battery pack to Hilti.

<table>
<thead>
<tr>
<th>European waste catalogue</th>
</tr>
</thead>
<tbody>
<tr>
<td>16 00 00 WASTES NOT OTHERWISE SPECIFIED IN THE LIST</td>
</tr>
<tr>
<td>16 06 00 batteries and accumulators</td>
</tr>
<tr>
<td>20 00 00 MUNICIPAL WASTES (HOUSEHOLD WASTE AND SIMILAR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL WASTES) INCLUDING SEPARATELY COLLECTED FRACTIONS</td>
</tr>
<tr>
<td>20 01 00 separately collected fractions (except 15 01)</td>
</tr>
<tr>
<td>20 01 34 batteries and accumulators other than those mentioned in 20 01 33</td>
</tr>
</tbody>
</table>

- Uncleaned packagings:
  - Recommendation: Disposal must be made according to official regulations.
  - Disposal of packaging according to regulations on the disposal of packagings.

14 Transport information

- Land transport ADR/RID (cross-border)
  - ADR/RID-GGVSE Class: 9 Miscellaneous dangerous substances and articles.
  - UN-Number: 3480
  - UN proper shipping name: UN 3480 Lithium ion batteries

- Maritime transport IMDG:
  - IMDG Class: 9
  - UN Number: 3480
  - Packaging group: II
  - EMS Number: F-A, S-
  - Correct technical name: UN 3480 Lithium ion batteries

- Air transport ICAO-TI and IATA-DGR:
  - ICAO/IATA Class: 9
  - UN/ID Number: 3480
  - Packaging group: II
  - Correct technical name: UN 3480 Lithium Ion batteries
  - UN "Model Regulation": 9, II
  - Special precautions for user: Warning: Miscellaneous dangerous substances and articles.
  - Transport/Additional information:
    Lithium-ion batteries are tested in accordance with: UN manual of Tests and Criteria, Part III, subsection 38.3

15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture
  - Labelling according to Regulation (EC) No 1272/2008: Void
  - Hazard pictograms: Void
  - Signal word: Void
  - Hazard statements: Void
  - National regulations
  - Other regulations, limitations and prohibitive regulations
  - Substances of very high concern (SVHC) according to REACH, Article 57: None
  - Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
16 Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
