

POLICY

Family Care - Governance Support

The Board of Directors recognizes and values the contributions and dedication of our community members to governance of UNAVCO as they serve on the Board and Committees that report to the Board. These committees and the Board often meet for hours, or even multiple day-long sessions, either in person or via video conference. To relieve some of the burden this commitment places on our governance members having to provide care for immediate family members, the Board approves reimbursement by UNAVCO of family care costs incurred to enable full participation in such meetings.
